# The Crime Situation - SA

- The Crime Pages Website:

The most fundamental duty of every government is to maintain law and order. Without this, everything else is meaningless. This country is in a state of civil war between the forces of law and order and the criminal class. We must concentrate all our energies and resources on the fight against crime. If we do not, we are doomed as a nation and as a people. Human rights are wonderful and we want them for everyone. But the first human right is the right to life and personal security, which protects life.
